

BarCash

A Community Token for
Nightlife & Entertainment

Traditional Loyalty is Stale. Social Currency Isn't Truly Social.

- Points-based systems are restrictive, tied to a single venue, and often expire. They're glorified coupons, not real assets.
- Digital check-ins and likes offer no tangible value to the user.
- There's a disconnect between the vibrant social activity in nightlife and the value it creates.

BarCash Gives You a Real Digital Token for Your Social Life

We're replacing outdated points with BarCash, an ERC-20 token you can earn, use, and exchange across an expanding network of bars and venues. It's a reward system built to be simple, social, and driven by real-world activity.

BarCash is Designed for Real-World Circulation

BarCash is the primary unit of value in the ecosystem, created to be used—not just held. As more venues join the network, its utility grows.

Redeem

Spend BarCash directly on food and drinks at our partner bars.

Participate

Use BarCash for access to exclusive community events and activations.

Exchange

Convert BarCash into Hearts, our unique social reward.

Trade

After the public launch, trade BarCash on open markets.

You can also purchase BarCash directly with ETH or USDT through the BarCash website.

Introducing **Hearts**: The Social Reward of the Ecosystem

Hearts are a special token designed to represent appreciation, participation, and community connection—not speculation.

1. **Distributed Freely:** Given out by bars and the community for engagement and interaction.
2. **A Token of Appreciation:** Send Hearts to friends, great staff, or people you meet.
3. **Community-Focused:** Designed to foster a positive and interactive social environment.

A separate document will fully explain the Hearts system.

The Foundational Token Details.

Token Name	BarCash
Symbol	BARCASH
Network	Ethereum <div> ERC-20</div>
Initial Supply	1,000,000,000 BARCASH

A Supply Model Built for Sustainable Ecosystem Growth.

BarCash **does not have a fixed supply**. This flexibility allows the ecosystem to adapt and thrive long-term.

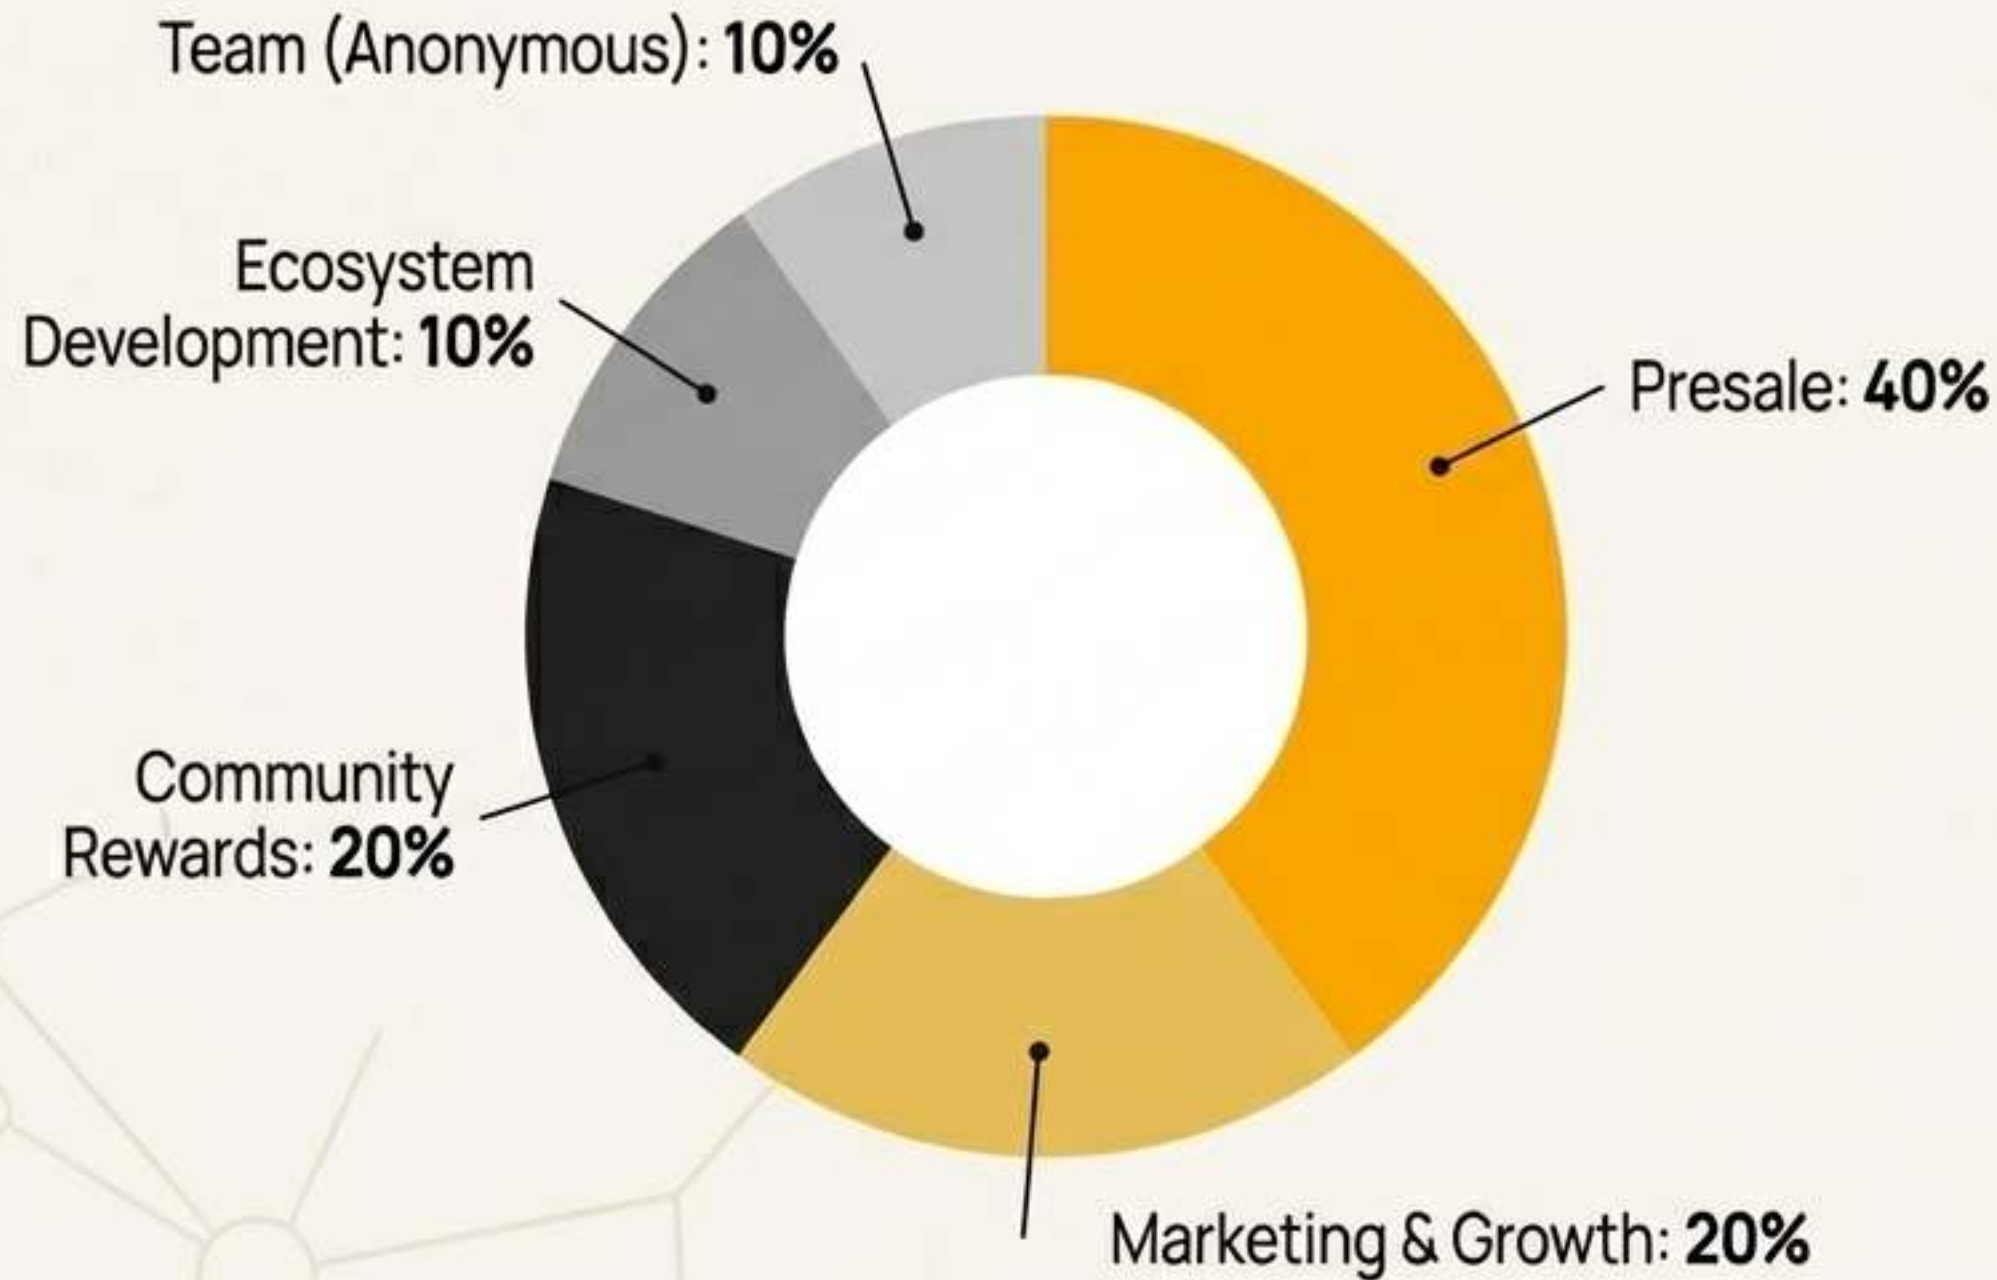

New tokens may be introduced over time to:

- Support the expansion of the partner venue network.
- Reward community participation and engagement.
- Fund long-term development and incentives.

All supply changes will be communicated transparently to the community.

Our Initial Token Allocation is Balanced for Long-Term Success.

The Presale: An Opportunity to Support BarCash from Day One

The BarCash presale allows our earliest supporters to participate before the token is available on public markets.

Allocation

40% of the initial supply
(400,000,000 BARCASH)

Accepted Currencies

Purchase using ETH or USDT

Use of Funds

Directly funds platform development, marketing campaigns, and ecosystem expansion

Full presale details and dates will be announced soon.
Follow our community channels to be the first to know.

Our Roadmap to a More Connected Nightlife.

Join the BarCash Community.

Be part of the movement to revolutionize rewards for **nightlife and entertainment**. **Connect** with us to get the latest **updates**, **announcements**, and **presale** information.

A Note on Decentralization & Risk

Please read this carefully. By interacting with BarCash, you acknowledge and accept the following:

- **Fully Decentralized:** BarCash is a community-driven project. No single entity, including the Core Contributors, has control.
- **Utility Token, Not a Security:** The token is intended for participation within the ecosystem. It is not an investment and there is no expectation of financial return.
- **Experimental Nature:** Decentralized systems carry inherent risks, including potential loss of funds for which no party can be held responsible.
- **User Responsibility:** You are solely responsible for your own due diligence, securing your wallet, and complying with all local laws and regulations.

This is a summary. For the full disclaimer, please refer to our whitepaper.
